See No Color (Fiction - Young Adult) By Shannon Gibney

For as long as she can remember, sixteen-year-old Alex Kirtridge has known two things:

1. She has always been Little Kirtridge, a stellar baseball player, just like her father.
2. She's adopted.

These facts have always been part of Alex's life. Despite some teasing, being a biracial girl in a white family didn't make much of a difference as long as she was a star on the diamond where her father—her baseball coach and a former pro player—counted on her. But now, things are changing: she meets Reggie, the first black guy who's wanted to get to know her; she discovers the letters from her biological father that her adoptive parents have kept from her; and her body starts to grow into a woman's, affecting her game.

Alex begins to question who she really is. She's always dreamed of playing pro baseball just like her father, but can she really do it? Does she truly fit in with her white family? Who were her biological parents? What does it mean to be black? If she's going to find answers, Alex has to come to terms with her adoption, her race, and the dreams she thought would always guide her.

Editorial Review

From School Library Journal

Gr 9 Up—For Alex Kirtridge, a 16-year-old transracial adoptee in Madison, WI, the topic of race has always been off-limits. Her white adoptive parents valiantly pretend not to see her as different in any way from their two biological children, yet she is treated as "other" by both black and white classmates. Alex tacitly agrees not to rock the boat, avoiding uncomfortable questions and devoting herself to being the star of the baseball team coached by her father, a former minor league player. But a stash of secret letters and a romance with an African American boy precipitate a journey of cultural and emotional exploration for Alex, forcing her to confront difficult truths about her adoptive and birth parents. The honest emotions in this coming-of-age novel will resonate with many readers who are grappling with finding a sense of belonging. Without lecturing readers, Gibney clearly elucidates many issues particular to transracial adoption and biracial identity while also making this a universal story about the need for acceptance. The sports content offers added appeal and a meaningful framework for the plot. At times the book seems to be taking on too much, but both major and secondary characters are well drawn and engaging. This thoughtful novel adds a much-needed perspective on a subject that affects many families but is rarely covered in YA fiction. **VERDICT** Recommended for purchase, particularly by libraries serving less diverse communities, where it will provide welcome education and support.—Laura Simeon, Open Window School Library, WA

About the Author

Shannon Gibney is a professor of English and African diaspora studies at Minneapolis Community and Technical College. She lives in Minneapolis with her husband and son.

Users Review

From reader reviews:

Sandy Gonsalves:
