## Tracks & Sign of Insects and Other Invertebrates: A Guide to North American Species By Noah Charney, Charley Eiseman

2012 *Choice Magazine* academic book award winner (zoology)

The first-ever reference to the sign left by insects and other North American invertebrates includes descriptions and almost 1,000 color photos of tracks, egg cases, nests, feeding signs, galls, webs, burrows, and signs of predation. Identification is made to the family level, sometimes to the genus or species. It's an invaluable guide for wildlife professionals, naturalists, students, and insect specialists.

Beetles, spiders, ants, flies, butterflies, mayflies, dragonflies, earwigs, crickets, grasshoppers, scorpions, centipedes, millipedes, snails, earthworms, lacewings, wasps, damselflies, slugs, and alderflies

Editorial Review

Information-rich, easy to read, and logically organized. . . an outstanding job compiling what is undeniably an overwhelming amount of diverse information. --Northern Woodlands

Crammed full of fascinating information. . . Highly recommended. --Choice Magazine  
From the Publisher  
The National Outdoor Book Awards (NOBA) Foundation has awarded Tracks and Sign of Insects and Other Invertebrates (9780811736244) the 2010 National Outdoor Book Award in its Nature Guidebook category.

About the Author

Charley Eiseman conducts plant and wildlife surveys for various nonprofits, state agencies, and universities throughout his native Massachusetts and in neighboring states. He holds an MS from the University of Vermont's Field Naturalist Program and a BS in wildlife and fisheries conservation and management from the University of Massachusetts. He is an extreme generalist with a passion for learning about all living things and their interconnections.

Noah Charney has conducted field research on amphibians, mammals, birds, and a variety of conservation issues. He is an author of several wildlife conservation journal articles and is currently finishing up a PhD in salamander terrestrial ecology as a National Science Foundation Graduate Research Fellow and a Switzer Environmental Fellow. Together, he and Charley have taught many workshops on animal tracking over the past decade. From his Tennessee roots to his time in California and Massachusetts, Noah has trained as a naturalist to understand and celebrate natural diversity. **Users Review**

**From reader reviews:**
