Weapons of World War II: Infantry Weapons - Unarmored Vehicles - Armored Vehicles -artillery - Specail - Weapons - Aircraft - Ships By Alexander Ludeke

This beautiful reference guide provides a clear and comprehensive look at the weapons and vehicles of all the countries that fought in World War II. It offers an excellent overview of the diverse weaponry used by both the Axis Powers and the Allies. The weapons described here range from the pistol to the 75t battle tank and from single-engine fighter planes to the largest, heaviest battleships ever to have sailed the seas. Everything you might want to know about the development and deployment of each type of weapon can be found here along with technical specifications, brought to life by over 500 photographs and technical drawings. Bursting with facts, this book is a treasure trove for anyone interested in history or military history wishing to learn more about how developments in weapons technology influenced the course of World War II.
