### **The Technological Indian** By Ross Bassett

In the late 1800s India seemed to be left behind by the Industrial Revolution. Today there are many technological Indians around the world but relatively few focus on India's problems. Ross Bassett—drawing on a database of every Indian to graduate from the Massachusetts Institute of Technology through 2000—explains the role of MIT in this outcome.

### Editorial Review

#### Review

[Bassett's] work traces the rise of India in the technological sphere in modern times, and here it offers fresh and interesting perspective... The book is a perfect read for someone who has interest in today's technological world and tries to understand it in historical perspective. (Rishi Raj *Financial Express* 2016-05-29)

A rich and fascinating story that interweaves the histories of modern India and the United States. Bassett elegantly combines social history with the history of technology, and the private lives of individuals with national desire and state policy. (David Arnold, University of Warwick)

In just fifty years, the technological emblem of India went from the hand-operated spinning wheel to the computer. Bassett explains how this happened with historical and human insight. This fascinating book is not just about India, but about the role of technology in social, economic, and political progress. (Rosalind Williams, Massachusetts Institute of Technology)

Bassett has written an excellent account of the development of India through technology during the last 50 years. (R. N. Sharma *Choice* 2016-10-01)

#### About the Author

Ross Bassett is Associate Professor of History at North Carolina State University.

### Users Review

#### From reader reviews:

#### Rudy Lapan:

Book is actually written, printed, or highlighted for everything. You can realize everything you want by a e-book. Book has a different type. As you may know that book is important issue to bring us around the world. Next to that you can your reading skill was fluently. A guide *The Technological Indian* will make you to always be smarter. You can feel far more confidence if you can know about every thing. But some of you think which open or reading any book make you bored. It's not make you fun. Why they might be thought like that? Have you searching for best book or ideal book with you?

#### Greta Rivera:

Your reading 6th sense will not betray a person, why because this *The Technological Indian* publication written by well-known writer we are excited for well how to make book that may be understand by anyone who have read the book. Written throughout good manner for you, still dripping wet every ideas and composing skill only for eliminate your hunger then you still skepticism *The Technological Indian* as good book not just by the cover but also by the content. This is one guide that can break don't evaluate book by its cover, so do you still needing another sixth sense to pick that!? Oh come on your examining sixth sense already told you so why you have to listening to yet another sixth sense.

**Wilma Shay:**

This The Technological Indian is great publication for you because the content that is full of information for you who all always deal with world and have to make decision every minute. That book reveal it information accurately using great plan word or we can declare no rambling sentences within it. So if you are read it hurriedly you can have whole details in it. Doesn't mean it only will give you straight forward sentences but challenging core information with wonderful delivering sentences. Having The Technological Indian in your hand like getting the world in your arm, information in it is not ridiculous one. We can say that no reserve that offer you world in ten or fifteen minute right but this reserve already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. hectic do you still doubt in which?

**Marlyn Melia:**

That e-book can make you to feel relax. This particular book The Technological Indian was bright colored and of course has pictures on there. As we know that book The Technological Indian has many kinds or type. Start from kids until teens. For example Naruto or Private investigator Conan you can read and think you are the character on there. Therefore , not at all of book are generally make you bored, any it can make you feel happy, fun and unwind. Try to choose the best book for yourself and try to like reading which.
