Editorial Review

Review

"Perspectives on IR is my preferred introduction to international relations textbook because it accomplishes the difficult task of wedding theory to practice without going overboard in either area. I have used several different intro to IR texts since I began teaching my course before settling on this one--the right mix of theoretical arguments and practical examples is quite rare. My students gain dramatically from seeing IR theories applied to major global events and issues--this approach truly cements the arguments from IR scholarship in my students' minds." -- Michael Touchton "The book's treatment of the perspectives is its greatest strength. I like the chapters devoted to conflict in history--they are useful both for filling in the historical knowledge that students don't have as well as for applying perspectives to concrete cases." -- Dwight Wilson, University of North Georgia "The strength of this text is that it does a good job of taking various perspectives and carrying them through a variety of different topics that we analyze in the study of international relations. Indeed, this is why I adopted the text, because my main goal is to instill analytical skills in my students." -- Heather McKibben

About the Author

Henry R. Nau has taught political science and served in government for more than 30 years. He is currently Professor of Political Science and International Affairs in the Elliott School of International Affairs at George Washington University, specializing in international relations and U.S. foreign policy. From 1981 to 1983, he served on the National Security Council as senior director responsible for international economic affairs. He also served, between 1975 and 1977, as Special Assistant to the Under Secretary for Economic Affairs in the Department of State. In 1977 he received the State Department's Superior Honor Award. His books include, among others, *Conservative Internationalism: Armed Diplomacy under Jefferson, Polk, Truman, and Reagan*; *At Home Abroad: Identity and Power in American Foreign Policy*; *Trade and Security: U.S. Policies at Cross-Purposes*; *The Myth of America's Decline: Leading the World Economy into the 1990s*; and *National Politics and International Technology: Nuclear Reactor Developments in Western Europe*.

Users Review
