**Timing Solutions for Swing Traders: A Novel Approach to Successful Trading Using Technical Analysis and Financial Astrology** By Robert M. Lee, Peter Tryde

**A unique new approach to trading based on financial analysis and financial astrology**

*Timing Solutions for Swing Traders: Successful Trading Using Technical Analysis and Financial Astrology* is a remarkable new book that introduces a revolutionary approach to non-day trading that combines the four basic dimensions of trend analysis—price patterns, volume, price momentum, and price moving averages—with a little financial astrology. Focusing on the essentials of technical analysis, the book is filled with examples of reliable indicators and formulas that traders can use to help develop their own styles of trading, specially tailored to their individual needs and interests.

Filled with real-life market examples to help you understand how to use the matrix of moving averages, how to apply different sets of time frame moving averages to form a trading decision, and how to determine the intermediate state of the market using the Queuing Theory (QMAC)—which dissects the interplay of long-term moving averages and helps anticipate major support and resistance levels—this book is packed with the information you need to maximize your trading potential.

- A dedicated trading guide for non-day traders
- Incorporates examples and formulas to bring ideas to life
- Presents an innovative new approach to trading that draws on the four core dimensions—price patterns, volume, price momentum, and price moving averages—for analyzing trends

Innovative and practical, *Timing Solutions for Swing Traders* is a hands-on guide to applying a remarkable new approach to trading.

### Editorial Review

From the Inside Flap

If you're like thousands of other traders, your busy schedule limits your ability to monitor your investments. Unlike the rapid-fire response of a day-trader, you may favor longer-term trades, which can last from several days to several months. *Timing Solutions for Swing Traders* offers traders like you a guide for detecting trends and finding better ways to time your trades.

*Timing Solutions for Swing Traders* taps into the growing trend of fusing technical analysis with cycle analysis and financial astrology. This unique resource covers the four dimensions related to trend analysis—price patterns, volume, price momentum, and price moving averages—and provides guidance on how to decipher price trends and develop the most effective and profitable trading methods. The book also shows you how to use financial astrology in lunar cycle trading, select stocks with the best potential, and find the best time for profitable trading.

Based on a simple and practical approach, *Timing Solutions for Swing Traders* offers a concise trading method that can take swing traders to the next level. Filled with illustrative examples, it shows you how mechanical trading systems are designed and how a standard indicator can be incorporated into a system. The helpful charts reveal how to assess and analyze different kinds of market scenarios.

This reliable resource skillfully covers the basic formulas used in the *Timing Solutions*' system and are designed to be incorporated with a trader's personal trading method. Of particular interest is the Queuing Theory (QMAC), which dissects the interrelationship of long-term moving averages and helps traders to anticipate major support and resistance levels.

Engaging and informative, *Timing Solutions for Swing Traders* clearly demonstrates how financial astrology can be combined with technical tools to give you an extra edge in timing market turns.

From the Back Cover

Praise for *Timing Solutions for Swing Traders*

"This is *the* trading book of the year, not only for experienced technical analysts but for seasoned traders who have been searching for just one good book that includes the essentials plus some innovative ways to improve their trading results. The book offers new thoughts on building trading plans, enhancing classic market indicators, and methods. Robert T.H. Lee has taken a giant step forward since he published *Power Tools for Traders* in 1997. The last part on Financial Astrology contributed by Peter A. Tryde should be a special bonus, a new approach to the study of technical analysis in recent years."

—**Teresa Wong/Blair**, Earlthorn.com, Trading Books Specialist and Seminars Organizer

"As an investor, it is refreshing to come across a book that contains such a comprehensive overview of technical analysis and also delves into an area not often considered, namely the influence of astro-harmonics on the markets. It is well known that lunar cycles affect human behaviour. Extensive studies of data drawn from stock markets around the world have confirmed this belief to be a fact. One can, therefore, look at the stock market performance not only as the manifestation of econo-financial outcomes, but also as a reflection

of collective investor (human) behavior. Yet, few books show how to use this known fact to our advantage! This book fills that void with its significant studies of astro-financial influence on markets, combined with an extensive review of technical analysis and stock risk management tools. I highly recommend the book to all serious traders, analysts, and researchers who are looking for new ways to improve their portfolio and trading performance."

—**Michael T. Kong**, CEO, Ethico Enviro-Energy Solutions Company Ltd

"This book is a very useful introduction to the many basic concepts and rules of technical analysis presented with clarity and easy to follow examples. It also offers seasoned traders some new perspectives and useful techniques to achieve better trading results."

—**Lee Seng Lin**, Consultant, Yu Ming Investment Management Ltd

"As a retired investment broker, with more than thirty years of experience in the markets of Asia and Australasia, it is a delight to read a book that so well relates to the need nowadays to combine fundamental, technical, and astrological analysis—especially since 2008! Even experienced traders can learn a trick or two from this book and I think it will become a reference book for many."

—**Brian Dilworth**

#### About the Author

**ROBERT T.H. LEE** has over fifty years of experience in the financial industry and over thirty-five years of experience in securities and investment banking. Currently, he is an Independent Non-Executive Director of Tingyi (Cayman Islands) Holdings Corp., a publicly listed company on The Stock Exchange of Hong Kong Limited. Lee is also a Senior Business Consultant of Henny Wee & Co, Certified Public Accountants, Hong Kong, in corporate governance, mergers, and acquisitions. He is an Associate of the Chartered Institute of Bankers, London, a member of The Hong Kong Institute of Bankers, and a member of the Hong Kong Securities and Investment Institute.

**PETER A. TRYDE** joined Merrill Lynch, Hong Kong, in 1981 and has spent over twenty years in the investment industry, becoming a securities and futures senior dealing director. In recent years, he has been engaged in the raising of capital for various "green" projects, as well as trading the markets based on the advanced neural network projection features of Timing Solution software program. His interest in astrology arose because a senior colleague used these forecasts in his trading back in the nineties and since then Tryde has been studying astro-harmonics with the main focus on how planetary cycles correlate with the trends in the financial and commodities markets.
