Thoughts on Design By Paul Rand

One of the seminal texts of graphic design, Paul Rand's *Thoughts on Design* is now back in print for the first time since the 1970s. Writing at the height of his career, Rand articulated in his slender volume the pioneering vision that all design should seamlessly integrate form and function. This facsimile edition preserves Rand's original 1947 essay with the adjustments he made to its text and imagery for a revised printing in 1970, and adds only an informative and inspiring new foreword by design luminary Michael Bierut. As relevant today as it was when first published, this classic treatise is an indispensable addition to the library of every designer.

Editorial Review

Review

"One impressive thing about Rand's book to me was always how much he was able to say about the nature of good design in 96 short pages (with the majority of those pages reproductions of his work). He was a master at arriving at designs that boiled down the essence of the intended messages, be it an advertisement or a corporate identity, and he similarly renders out the heart of basic design philosophy in this book." -

BoingBoing

About the Author

Michael Bierut is a partner at Pentagram Design's New York office, and a recipient of the prestigious AIGA Medal.

Paul Rand (1914–1996) is widely recognized as one of the major influences in the history of graphic design.

Users Review

From reader reviews:

Mary Marshall:

In other case, little people like to read book Thoughts on Design. You can choose the best book if you love reading a book. As long as we know about how is important a book Thoughts on Design. You can add knowledge and of course you can around the world by just a book. Absolutely right, simply because from book you can realize everything! From your country till foreign or abroad you may be known. About simple point until wonderful thing you may know that. In this era, you can open a book as well as searching by internet device. It is called e-book. You need to use it when you feel uninterested to go to the library. Let's go through.

Regina Laporte:

What do you think about book? It is just for students as they are still students or the idea for all people in the world, exactly what the best subject for that? Just simply you can be answered for that query above. Every person has distinct personality and hobby for every other. Don't to be pushed someone or something that they don't want do that. You must know how great and important the book Thoughts on Design. All type of book are you able to see on many sources. You can look for the internet methods or other social media.

Anita Winn:

Spent a free time for you to be fun activity to try and do! A lot of people spent their free time with their family, or their particular friends. Usually they carrying out activity like watching television, about to beach, or picnic within the park. They actually doing same thing every week. Do you feel it? Do you wish to something different to fill your own personal free time/ holiday? Might be reading a book may be option to fill your no cost time/ holiday. The first thing that you ask may be what kinds of book that you should read.

If you want to try look for book, may be the e-book untitled Thoughts on Design can be very good book to read. May be it might be best activity to you.

Jerry Bonner:

As we know that book is important thing to add our knowledge for everything. By a guide we can know everything we would like. A book is a list of written, printed, illustrated or maybe blank sheet. Every year has been exactly added. This publication Thoughts on Design was filled about science. Spend your free time to add your knowledge about your scientific disciplines competence. Some people has different feel when they reading a book. If you know how big benefit of a book, you can feel enjoy to read a guide. In the modern era like today, many ways to get book that you simply wanted.
