### **Editorial Review**

#### **About the Author**

Richard Aufmann is the lead author of two bestselling developmental math series and a bestselling college algebra and trigonometry series, as well as several derivative math texts. He received a BA in mathematics from the University of California, Irvine, and an MA in mathematics from California State University, Long Beach. Mr. Aufmann taught math, computer science, and physics at Palomar College in California, where he was on the faculty for 28 years. His textbooks are highly recognized and respected among college mathematics professors. Today, Mr. Aufmann's professional interests include quantitative literacy, the developmental math curriculum, and the impact of technology on curriculum development.

Joanne Lockwood received a BA in English Literature from St. Lawrence University and both an MBA and a BA in mathematics from Plymouth State University. Ms. Lockwood taught at Plymouth State University and Nashua Community College in New Hampshire, and has over 20 years' experience teaching mathematics at the high school and college level. Ms. Lockwood has co-authored two bestselling developmental math series, as well as numerous derivative math texts and ancillaries. Ms. Lockwood's primary interest today is helping developmental math students overcome their challenges in learning math.

### **Users Review**

#### **From reader reviews:**

##### **David Crockett:**

What do you regarding book? It is not important along? Or just adding material if you want something to explain what your own problem? How about your spare time? Or are you busy individual? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have time? What did you do? Everybody has many questions above. The doctor has to answer that question due to the fact just their can do in which. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on pre-school until university need this Mathematics: Journey from Basic Mathematics through Intermediate Algebra to read.

##### **Henrietta Roderick:**

The guide untitled Mathematics: Journey from Basic Mathematics through Intermediate Algebra is the e-book that recommended to you to learn. You can see the quality of the book content that will be shown to an individual. The language that author use to explained their way of doing something is easily to understand. The article author was did a lot of exploration when write the book, so the information that they share to your account is absolutely accurate. You also might get the e-book of Mathematics: Journey from Basic Mathematics through Intermediate Algebra from the publisher to make you more enjoy free time.

**Robert Bell:**

People live in this new day of lifestyle always aim to and must have the time or they will get large amount of stress from both way of life and work. So , whenever we ask do people have time, we will say absolutely sure. People is human not just a robot. Then we request again, what kind of activity have you got when the spare time coming to a person of course your answer will certainly unlimited right. Then do you ever try this one, reading publications. It can be your alternative in spending your spare time, typically the book you have read is Mathematics: Journey from Basic Mathematics through Intermediate Algebra.

**Joseph Nixon:**

Reading a reserve make you to get more knowledge from that. You can take knowledge and information coming from a book. Book is published or printed or outlined from each source that will filled update of news. In this particular modern era like today, many ways to get information are available for an individual. From media social including newspaper, magazines, science reserve, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just looking for the Mathematics: Journey from Basic Mathematics through Intermediate Algebra when you required it?
