Multidimensional Dowsing Questions: Volume II (Volume 2) By Henry Dowser

Here is a yes/no question to ask, or dowse, about this book: Would this book be worth at least 100 times what I paid for it, to me? If the answer is "no", I recommend you not get it. If the answer is "yes", you can make the decision to get it. The questions we ask form our lives. We are the crystallization of the questions we ask. This book offers tools to dowse in new ways, and even shape one's life, multidimensionally. Tony Robbins discusses Power Questions, however he, and other authors, only offer a few examples, in their books, of the kind of questions in this book. This book offers numerous kinds of questions, enough that you can notice the patterns, and ask your own multidimensional dowsing questions, beyond what is listed here. You can dowse the pages, for the right question for you, also, if you wish. This book has a few thousand times as many multidimensional dowsing questions as any other book we've ever read on the subject. We have not found any other book quite like this one. Some dowsers say that dowsing is intuition with a readout device. So it is. Multidimensional dowsing moves through this, into direct knowing, with the entire Universe as the readout device. I sometimes read books where I know most of what's in them. That is not so interesting. I much prefer books that have tantalizing hints of awareness outside of my comfort zone, that are confusing. I went through college feeling confused, stupid, and in shock. I intentionally kept myself in that state- by seeking out the new, and unfamiliar, based on my fascinations. I knew I was growing, if I felt that way. If I had felt like I knew everything, already, that would have indicated that I wasn't learning anything, that I was decaying. There is no stability as such; there is only growth, or decay. I chose growth. Life is a series of problems to solve, or growth opportunities. You can be in the fast class, or the slow class. You choose... this book is for those who want to advance, quickly, in fun ways, learning to use questions to open up multidimensional awareness. Traditionally, seekers would find those who were "farther down the path", Sensei, in Japanese, and learn from them. In our rushed, modern culture, books can do some of what the masters used to do. This is at least more efficient. I was always seeking spiritual masters when I was younger, and very frustrated when they didn't show up. I read as many books as I could, figuring that while I was waiting, I could at least prepare myself. When the student is ready, the teacher appears, right? And for me, when the student was ready, the teaching

appeared, only I didn't realize the books were the teacher. Multidimensional dowsing questions bring in new possibilities, open portals, return us to our true selves, shape our lives, suggest new paths, take us down our life path, take us out of work and into play, widen awareness, and take us into multidimensional reality. They are a fun way to play with the Universe, and move into and explore previously unknown areas, using dowsing. As the second book in the series, this offers a number of new questions not listed in the previous volume.
